There is no answer to our letter No 716/47 of 21st May and the balance of amount payable by the Municipality still remains unadjusted. We are sorry to observe that what you have done is in line with what many other Municipalities have been doing, that is, buy materials without provision or Government Sanction.

We reluctantly say that we have to bring this matter to the notice of the Government if we do not receive immediate payment. We do not propose to wait beyond 10th of July.

We would like to point out also that our guarantee of service has been temporarily suspended until full payment received and the equipment remains at your risk.
